Categories: FOIA

Heather,

There is no RCRA Remedial Action Plan for the FMC RCRA Ponds. Work is being done under CERCLA Removal UAO. There is an applicable RCRA Post Closure Plan. Andy might be able to explain more about RCRA and CERCLA work together at the FMC RCRA Ponds.

US FOIA (b)(6)

I have come across this wording in some of the existing documents, so I want to make sure I understand what RCRA documents are in place or effect vs. what CERCLA documents are in place or effect.

Are there any §270.79 Remedial Action Plans in place for the FMC ponds? Or do you just use the term remedial action in the Unilateral Administrative Order documents under CERCLA?

Thanks Greg!
